Tyco Launches New Gas and Flame Detection Brand

Five Global Companies under One Brand Provide Complete Gas and Flame Detection Solutions

Princeton, NJ – February 18, 2016 – Tyco International (“Tyco” NYSE: TYC) today announced the formation of Tyco Gas & Flame Detection, a new operating brand of Tyco Life Safety Products division. Under this new brand, Tyco intends to be the global solutions provider of choice for all entities with gas and flame detection needs.

The launch of Tyco Gas & Flame Detection represents the culmination of integration activities since Tyco’s acquisition of Industrial Safety Technologies (IST) in February of 2015. The combination of IST companies - Detcon, Oldham, Gas Measurement Instruments (GMI) and Simtronics - together with the gas and flame detection portfolio of Scott Safety makes Tyco Gas & Flame Detection one of the largest global manufacturers of innovative gas and flame detection products. The business is well positioned to provide customers with a complete range of smarter, safer solutions and services.

“Under Tyco Gas & Flame Detection, we are now able to share best practices and ideation across our businesses to deliver a comprehensive product portfolio with the most advanced technology and support level in the industry,” said president of Tyco Life Safety Products, Andrew Chrostowski. “As part of Tyco’s global network of fire and security solutions, we are uniquely positioned to deliver innovative solutions to our customers.”

In addition to providing customers with a complete range of innovative gas and flame detection solutions, Tyco Gas & Flame Detection offers one of the most comprehensive service and support networks in the world, leveraging Tyco’s global installation and service footprint, along with an established network of authorized service providers.

“Our mission is to be the global technology leader and world-class provider of innovative and trusted gas and flame detection solutions that protect people, assets and the environment,” said Sean Magee, General Manager of Tyco Gas & Flame Detection.

Tyco’s Life Safety Products division is focused on protecting what matters most. Going forward, it will go to market through two primary brands: Tyco Gas & Flame Detection and Scott Safety. Scott Safety will remain the primary brand for personal protective products, delivering the world’s leading respiratory protection, thermal imaging, and PPE solutions for first responders, industrial workers, and military personnel around the world.

FORWARD-LOOKING STATEMENTS

This press release contains a number of forward-looking statements. In many cases forward-looking statements are identified by words, and variations of words, such as "anticipate", "estimate", "believe", "commit", "confident", "continue", "could", "intend", "may", "plan", "potential", "predict", "positioned", "should", "will", "expect", "objective", "projection", "forecast", "goal", "guidance", "outlook", "effort", "target", and other similar words. However, the absence of these words does not mean the statements are not forward-looking. Examples of forward-looking statements include, but are not limited to, revenue, operating income, earnings per share and other financial projections, statements regarding the health and growth prospects of the industries and end markets in which Tyco operates, the leadership, resources, potential, priorities, and opportunities for Tyco in the future, Tyco's credit profile, capital allocation priorities and other capital market related activities, and statements regarding Tyco's acquisition, divestiture, restructuring and other productivity initiatives. The forward-looking statements in this press release are based on current expectations and assumptions that are subject to risks and uncertainties, many of which are outside of our control, and could cause results to materially differ from expectations. Such risks and uncertainties include, but are not limited to: economic, business, competitive, technological or regulatory factors that adversely impact Tyco or the markets and industries in which it competes; unanticipated expenses such as litigation or legal settlement expenses; tax law changes; and industry specific events or conditions that may adversely impact revenue or other financial projections. Actual results could differ materially from anticipated results. Tyco is under no obligation (and expressly disclaims any obligation) to update its forward-looking statements. More information on potential factors that could affect the Company's financial results is included from time to time in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of the Company's public reports filed with the SEC, including the Company's Form 10-K for the fiscal year ended September 26, 2014.
